There is no libertarian party of America. I don't care what these fascists tell you dear friends. Don't ever pick their candidates. Don't fund them. Don't support them. They are lie. Defining principle of libertarianism is non aggression followed by property rights.

Russian libertarians, actual libertarians, sit in jail for opposing Russian aggression. They ran to exile screaming to West to stop Russian aggression. They have been disappeared to stand for freedom. Same with every libertarian group across Eastern Europe. In Belarus

Half of opposition is dead or in jail. In Ukraine, birth place of libertarianism, our libertarians are dying to defend property and fight Russian genocide. Mises who founded this movement, is Ukrainian and born in Lviv

It's precisely Russian aggression and property theft he fight against.

But these American charlatans start Mises Institute from where they support Russian aggression. They say they are against Putin, but promote every propaganda, every staged Russian false flag as justification for Russian aggression. [@mises](#) is founded by racists and antisemites who

Promote idea that in order to stop America from building empire, Russian aggression and genocides should be allowed. They promote lie that NATO made Russia do this again to us. But they can't explain all times Russia has done this before NATO existed or why weaker countries

Would seek protection from Russia or even basic question they can't answer: when was Russia attacked by NATO or anyone else? When? Same people who defend most brutal, racist, antisemitic, anti freedom regime in modern history throw up quotes to 🇺🇸Martin Luther King to honor him.

But don't care that Russia is largest slaver and trafficker on earth.

These #libertarians routinely cite Russian funded communist @TheGrayzoneNews as source of information on Ukraine. That's how lost such people are. They promote Russian apologists @mtracey and @ggreenwald but not ideals of Mises who they steal and misuse.

They don't know anything about #Donbas but demand it have freedom. It's like to say give Pinochet legitimacy but they don't know who that is. These are liars, charlatans for freedom. Don't let them trick you. They are not legitimate. I spend year now watching them lie, promote

Help Russia kill us in name of what they say is liberty. They are Trump as much as Trump only worse, they hide their true beliefs under duvet of #Liberty. You know how many time I ask them

To explain their position and how many time they block me? They have only one argument, fall of America which they believe is cause of evil in world and they don't care that they side with worse evil to get there.

Not one of them can tell you honestly why they support Russia without exposing themselves as fascists in red brown alliance with communists. They cant. They spend year putting swastikas on Jewish president. You ask them why, they say Bandera. But can't actually cite

Anything but Russian propaganda. They can't find one actual Ukrainian, can't tell you anything about Russian aggression without citing Americans and Russians. Because they don't care for facts. I warn you friends because they appeal to your decency, but they are fascists.
