"FLAG OF KEEKISTAN" based on the Nazi flag.

"White Power" hand gesture used by Alt-Right mascot "Pepe" aka the "KEK Frog".

"KILL EVERY KIKE"

One of the most widely used terms on the white supremacist website 4chan, "KEK" is an acronym for the words "Kill Every Kike". Frequently posted as "TOPKEK", because it is a "top" priority to "Kill Every Kike".

On the top left, the "Flag of Kekistan" based on the flag of the Nazi Third Reich. On the top right, Alt-Right hate mascot "Pepe" aka the "Kek Frog" seen here using the White Power "OK" hand gesture.

Beware, and if you see anyone online using this racist term, **DO NOT** allow them to get away with it. Report and call them out for being a **Nazi!**

The first screenshot shows a tweet thread on February 6th at 5:12 AM. The top tweet is a tweet card for 'Russian Market' with a video thumbnail of a woman speaking. The video has a list of statistics: 6,320 Tanks and armored vehicles, 7,360 Howitzer (Artillery systems), 497 Air defense system, 157,000 Dead, 234,000 injured, 17,230 Captive, and 234 Dead - NATO military trainers (US and UK). Below the video, it says 'more than 100,000 Ukrainian officers have been killed so far'. The tweet has 6M views, 2,367 replies, 5,802 retweets, and 20.2K likes. 59/ Musk said Twitter values would not be enforced after 2-7-23, but Twitter had already been ignoring reports of overt racism since long before that.

The first screenshot shows a tweet thread on February 7th at 11:13 AM. 60/ Musk uses propaganda methods to amplify & spread false info. He finds obscure tweets w false statements, gives them legitimacy by commenting "concerning", as if there's reason to believe them, then they're amplified all over Twitter via Musk's falsely legitimizing comment.

63/ (part 2/3) Musk gave Russian propaganda as peace plan, in Twitter "poll". Musk claimed Crimea was historically in Russia & became part of Ukraine by mistake, that east Ukraine vote to secede, & Ukraine not be in NATO. Musk said if Russia doesn't get Crimea, then nuclear war.

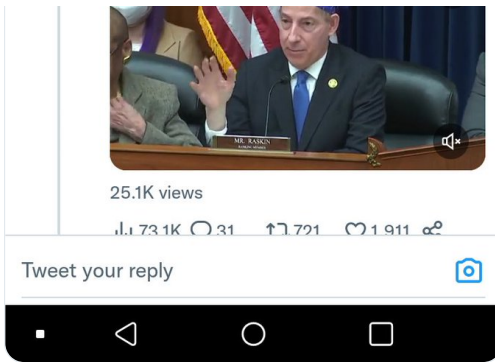

The image shows two screenshots from a mobile phone. The left screenshot is a Twitter thread titled "Thread" from Feb 09. It features a tweet by Elon Musk (@elonmu...) dated 03 Oct 22 with the title "Ukraine-Russia Peace:". The tweet lists four points: 1) Redo elections of annexed regions under UN supervision. Russia leaves if that is will of the people. 2) Crimea formally part of Russia, as it has been since 1783 (until Khrushchev's mistake). 3) Water supply to Crimea assured. 4) Ukraine remains neutral. Below the text is a poll with two options: "Yes" (41%) and "No" (59%). The poll shows 2,748,378 votes and "Final results". Engagement stats include 114K replies, 45.2K retweets, and 98.5K likes. The right screenshot is a tweet titled "Tweet" from Feb 09. It is a reply to @spideycyp_155 and @BillyM2k, dated 20 Oct 22. The text says: "If Russia faced calamitous defeat in conventional warfare for something as strategically critical as Crimea, the probability of using nuclear weapons is high". Engagement stats show 366 replies, 148 retweets, and 1,403 likes. Below it is a reply from Crispin Rovere (@crispinrovere) dated 20 Oct 22, asking "What is your evidence for this?".

64/ (part 3/3) Musk blamed lost Twitter "poll" on Ukrainian bots, despite evidence of Russian bots.

Political commentators argued for US government to seize Starlink if Musk interfered with Ukrainian military for personal views.

Musk banned use of Starlink for Ukrainian drones.

The image shows two screenshots from a mobile phone. The left screenshot is a tweet titled "Tweet" from Feb 09. Below the poll is a reply from Nemli-Nica (@Nemli_mot) dated 03 Oct 22, replying to @elonmusk. The text says: "Wonder how many bots were activated to turn around the original result." The right screenshot is a thread titled "Thread" from Feb 09. It shows a tweet by Aaron Rugar (@atrupar) dated 1h. The text says: "RASKIN: Did I hear you say there were hundreds of thousands of counterfeit Twitter accounts set up by Russian propaganda and disinformation?". Below it is a reply from ROTH: "That's right. Those accounts are still active on social media today." and another reply from RASKIN: "Well, we should be having a hearing about that".

65/ Possible correction to #64 🙄.

Early reporting may be inaccurate re ban on Starlink use for drones.

There's speculation ban's only for mounting mobile Starlink dishes & computers on suicide drones for penetration deep into Russian territory, & this *may* be at US request.

to only apply to direct control with Starlink antennas directly mounted onto a drone, as was recently seen. For all we know, this restriction *may* have been done at the request of US State Dept. twitter.com/clashreport/st...
