91/ Musk says manipulating public opinion is key to success per others, admits building AI to do it, & is engaging in "psy ops", operations to convey selected information to influence emotions, motives, & objective reasoning, & ultimately behavior of govts, orgs, & individuals.

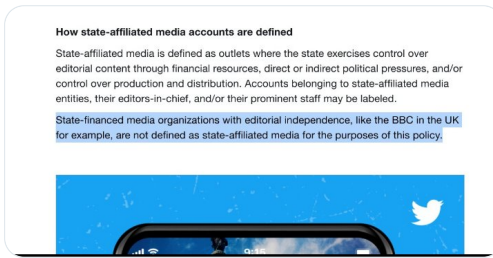

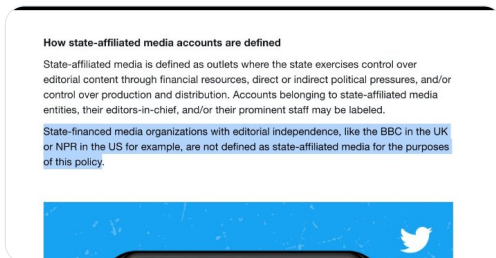

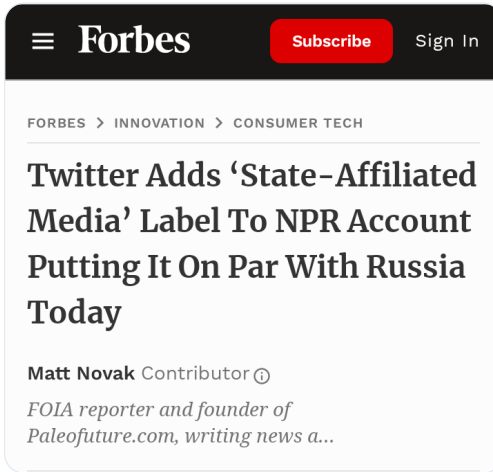

92/ (clarification to #91) Tweets 1-90 in this thread show that Musk is actually doing what he accuses others of doing in screenshots of #91. Compare to when Trump accuses others of something, which is typically an admission. This is an example of "psyop" methods.

Twitter has been accused of bowing to government pressure in India by blocking scores of prominent journalists, politicians and activists from its platform in recent weeks.

The Indian government issued notices to Twitter to remove people in the aftermath of an internet shutdown in Punjab **during the search for a fugitive Sikh separatist leader.**

Twitter agreed to block more than 120 accounts, including the Canadian politician Jagmeet Singh, the Canadian poet Rupi Kaur, several journalists and an Indian MP. Twitter also blocked the handle of the BBC's Punjabi bureau.

Twitter has updated its hateful conduct policy to remove protections for trans users. They specifically removed protections from targeted misgendering and deadnaming. While the rules were sparsely enforced, this greenlights further targeting of trans users.

National Intelligence Admits That Fauci Lied About Gain Of Function Research

BY TYLER DURDEN WEDNESDAY, APR 19, 2023 - 06:35 AM

Only two years ago numerous alternative media sources including Zero Hedge were accused of spreading "conspiracy theories" and false information relating to the origins of the Covid-19 virus. Specifically, anyone who dared to suggest that the Level 4 virology lab in Wuhan, China (right across town from covid ground zero) might be the source of the outbreak, faced outright censorship on social media. The question many people should have been asking is: "Why?" - **Why was the censorship so aggressive over clearly reasonable investigations into Wuhan lab operations?**

105/ Musk uses propaganda method that allows plausible deniability. He comments to antivaxxers, consp theorists, neonazis, antisemites, homophobes, racists, etc, to boost them/tweet. But comment is ambiguous, so Musk can deny anything. Eg:
