Kremlin media sure love to whitewash Ryan Dawson as a "human rights activist"

RT is the first Russian 24/7 English-language news channel which brings the Russian view on global news.

<https://www.rt.com/search?q=ryan+dawson>

Peace activist and journalist [Ryan Dawson](#) told RT that it would be difficult to determine where the weapons originated from as the so-called opposition has many outside sources financing it and aiding with weapons.

"We have the Gulf monarchs and Israel. Probably not directly from the US and Israel, because they like to have plausible deniability - they probably went through Qatar or Turkey."

RT: There's been widespread opinion, promoted by some major world powers that any chemical weapons use in Syria would only ever be down to the Assad regime. So are you surprised to hear it may have been the rebels using them?

Ryan Dawson: I'm not surprised, because we've heard that before, back in December there was a scare about chemical weapons and red lines being crossed. That turned out to be the terrorist mercenaries in Syria. And there was an Israeli airstrike following that in January. So this is the exact same scenario.

Okinawa residents are worried the aircraft's safety is not up to standard as the MV-22 has a troubled history of crashes. The latest crash involving a V-22 was in April during the African Lion military exercise in Morocco. The incident prompted the Tokyo to ask the US for guarantees concerning the safety of the deployment in Okinawa.

One of the MV-22's biggest problems is that there are still bugs to be worked out in the aircraft's hybrid helicopter-airplane design, [human rights activist Ryan Dawson](#) said.

"For them to bringing these MV-22s is very dangerous. It could fall on someone's head, and that is not an exaggeration," Dawson told RT. "They don't work, they are very expensive and very dangerous."

The MV-22 Osprey acquired a reputation of being unreliable and difficult to fly, and had a "troubled development history that included numerous deadly crashes," the Washington Post's [Checkpoint](#) blog reported.

Two years ago, residents in Okinawa, Japan protested a deployment of Ospreys to the US Futenma military base because there were still bugs to be worked out in the aircraft's hybrid helicopter-airplane design, [human rights activist Ryan Dawson](#) told RT at the time.

"For them to bringing these MV-22s is very dangerous. It could fall on someone's head, and that is not an exaggeration," Dawson said. "They don't work, they are very expensive and very dangerous."

The level of secrecy at Guantanamo Bay prison results in abuse, turning inmates into "human beings with no rights," [geopolitical analyst Ryan Dawson](#) told RT, while commenting on a "massive hunger strike" at the infamous detention center.

Lawyers for Guantanamo Bay inmates said that "all but a few men" in one of the prison's camps are on hunger strike, in protest over alleged disrespect to the Koran and the confiscation of personal items. The prisoners' condition is said to be "rapidly deteriorating and reaching a potentially critical level."

Rights activists in the US have claimed that prisoners' personal items were being taken, and exercise was being restricted. RT spoke with geopolitical analyst [Ryan Dawson](#) – who has written extensively on Guantanamo – to hear his opinion on these accusations.

Somehow, in all the many times they've presented Ryan Dawson as a purported expert on current events, RT has neglected to mention that he has devoted much of his life over the past several years to producing blog posts, books, interviews and videos, not to mention tweets and Facebook posts, questioning the Holocaust and promoting bigotry against Jews.

How does Ryan Dawson feel about Israel? 🤔

https://canarymission.org/individual/Ryan_Dawson

Supporting BDS

As of July 2021, Dawson operated an online shop for ANC that sells merchandise, including "Boycott Israel" and "End All Aid To Israel" T-Shirts. The price of the "Boycott Israel" shirt was "\$14.88" and a description line beneath an "End All Aid To Israel T-Shirt" that featured a graphic of bombs, said: "Stop Aiding Racist Psychopaths."

"1488" is a common neo-Nazi phrase. The "14" stands for the "14 Words," a term created by white supremacist David Lane, meaning: "We must secure the existence of our people and a future for white children." The "88" is code for "Heil Hitler," since "H" is the eighth letter of the alphabet.

On March 25, 2019, Dawson tweeted: "Israel doesn't act like Nazis. Nazis acted like Zionists. Zionist worked with Nazis. But the Z came long before the N."

Demonizing Israel

On June 22, 2019, Dawson tweeted a poll asking people to complete the phrase: "Israel is." The options offered to complete the phrase were: "Cancer," "AIDS" and "A Parasite."

Hardly surprising, therefore...

Scott talks to Ryan Dawson about cancel culture and the latest wave of deplatforming, of which Dawson himself is a victim. Dawson, who spends much of his time fighting against the neoconservative ideology, has come under fire over and over again for the alleged thought crimes of racism and anti-semitism. In reality, of course, Dawson is the furthest thing from a racist, having devoted much of his life to advocating things like police reform and the abolition of the war on drugs. But he has also been staunchly antiwar, and that has helped to earn him some vocal enemies. Scott and Dawson go on to discuss the Marxist roots of Black Lives Matter, the history of slavery, the economies of Africa and skateboarding as a force for social good.

Ryan Dawson - The Holocaust Denying Bigot — StopAntisemitism

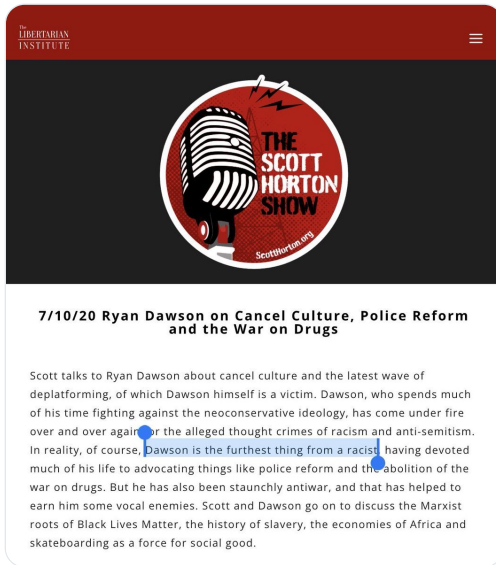

Ryan Dawson is a self-proclaimed journalist and "human rights activist" who runs a self-produced news report, "Ry Dawson's ANC Report". He uses his program to spread horrific antisemitism...

LIBERTARIAN INSTITUTE

THE SCOTT HORTON SHOW

7/10/20 Ryan Dawson on Cancel Culture, Police Reform and the War on Drugs

Scott talks to Ryan Dawson about cancel culture and the latest wave of deplatforming, of which Dawson himself is a victim. Dawson, who spends much of his time fighting against the neoconservative ideology, has come under fire over and over again for the alleged thought crimes of racism and anti-semitism. In reality, of course, Dawson is the furthest thing from a racist, having devoted much of his life to advocating things like police reform and the abolition of the war on drugs. But he has also been staunchly antiwar, and that has helped to earn him some vocal enemies. Scott and Dawson go on to discuss the Marxist roots of Black Lives Matter, the history of slavery, the economies of Africa and skateboarding as a force for social good.

Z (military symbol)

Article Talk

From Wikipedia, the free encyclopedia

"Z symbol" redirects here. For other uses, see Z (disambiguation).

"Zwastika" redirects here. For swastika, see Swastika (disambiguation).

The **Latin-script letter Z** (Russian: зет, *z*, *zet*, IPA: [zɛt]) is one of several symbols (including "V" and "O") painted on **military vehicles** of the **Russian Armed Forces** involved in the **2022 Russian invasion of Ukraine**. It is speculated that the Z helps **task forces** distinguish themselves from other forces.^{[1][2]}

Subsequently, it also became a **militarist symbol used in Russian propaganda**^[3] and by **Russian civilians** as a sign of support for the invasion. Outside **Russia**, the symbol has been banned from public display in various countries. The "Z" symbol has been pejoratively called a **zwastika** or **zwastika**, in reference to the **Nazi swastika**,^[15] or pejoratively in Russian and Ukrainian as "ziga" (Russian: зига) in reference to *Sieg Heil*, by opponents of the war.^[19] Some Ukrainian officials and commenters on the Internet also started referring to Russia as **Ruzzia** or **Ruzzia** (Russian: Рozzия or PоZZия; Ukrainian: Pоzzin or PоZZin).^[24]
