Taiwan is a country 🇹🇼🇹🇼🇹🇼 🍷

Taiwan ("Republic of China", ROC) is a country. 🇹🇼

Taiwan,^{[1][n]} officially the **Republic of China (ROC)**,^{[1][o]} is a country^[31] in East Asia. It is located at the junction of the East and South China Seas in the northwestern Pacific Ocean, with the People's Republic of China (PRC) to the northwest, Japan to the northeast, and the Philippines to the south. The territories controlled by the ROC consist of 168 islands,^[p] with a combined area of 36,193 square kilometres (13,974 sq mi).^{[17][42]} The main island of Taiwan, also known as Formosa, has an area of 35,808 square kilometres (13,826 sq mi), with mountain ranges dominating the eastern two-thirds and plains in the western third, where its highly urbanised population is concentrated. The capital, Taipei, forms along with New Taipei City and Keelung the largest metropolitan area of Taiwan. Other major cities include Taoyuan, Taichung, Tainan, and Kaohsiung. With around 23.9 million inhabitants, Taiwan is among the most densely populated countries in the world.

And? What does saying this do, other than signal support for war with China, especially since you're retweeting this so soon after Biden gave a war guarantee? I assume you'll be flying over there to help, @LibertyBeks

It's not to echo the empire's war propaganda, that's for sure.

This is like asking "Is Saddam Hussein a tyrant, simple question, yes or no" in 2002

The Libertarian Party used to know that [#TaiwanIsACountry](#), they were even selling this nice pin... 🇹🇼

The ROC, in fact, existed *before* the PRC, for instance UN seat (security council permanent seat!), which legally and morally should *still* be Taiwan's, not the genocidal communist regime's. 🇹🇼

Taiwan 🇹🇼, therefore, cannot "secede" or "divorce" from the communist People's Republic of China (PRC) as it was never part of the PRC, anymore than e.g. the UK should consider "seceding" from the Kingdom of Jordan or from the USA.

Lying about these basic facts of logic, history and geography is usually a sign of simping for the genocidal, communist, totalitarian regime currently oppressing China...

The US government is aggressively pushing for war with China, openly backing separatists in Taiwan (which is part of China)

A top US general threatened China, vowing, "We will support them [separatists] militarily," to "train them and equip them" for war

The US media freak out over a Chinese balloon is so revealing. Imagine if instead China was encircling Hawaii with warships and military bases, arming it with \$1 billion in weapons, and encouraging it to secede from the mainland. Like the US is in Taiwan.

... and thereby *encouraging* them to proceed with a deadly war of aggression to conquer, through a murderous war, additional territory which they've never held before...

Taiwan is not a country.

...thereby expanding their already vast empire and being able to murder and oppress whomever they want from an additional 24 million people, in addition to the 1.4 billion they are already terrorizing. Deep down, everyone knows that Taiwan is a country 🇺🇸: Sometimes it slips out 😊

No more foreign wars.
End all aid to Israel, Ukraine, Taiwan, and every other country.
That's what #AmericaFirst should look like.

Libertarian Party NH @LPNH
Taiwan has made a deal with the devil. Much like the corrupt oligarchs in Ukraine, they've allowed corrupt Western oligarchs and State Department war pigs to flood their country with money, bombs, and a false hope at independence.
They're putting the lives of millions needlessly at risk, and we should not be supporting them in any way.

Lying about such basic facts of logic, history and geography is therefore usually a sign of being:

- a communist
- a warmonger
- a supporter of the imperialism of big, authoritarian states becoming even bigger and more dangerous
- brainwashed by CCP propaganda

- a genocide supporter
- a bootlicker of tyrants to the point of happily repeating $2+2=5$ if your masters tell you to...
- ... or maybe a wumao paid 50 cents to do so. [#50CentParty](#)

The **50 Cent Party**, also known as the **50 Cent Army** or **wumao** (/ˈwuːmaʊ/ *WOO-mow*), are **Internet** commentators who are **paid by the authorities** of the **People's Republic of China** to spread the propaganda of the governing **Chinese Communist Party** (CCP).^{[1][2][3][4][5]} It was created during the early phases of the Internet's rollout to the wider public in China.

The name is derived from the fact that such commentators are paid **RMB¥0.50** for every post.^{[6][7][8]} These commentators create **comments** or articles on popular Chinese **social media** networks that are intended to **derail discussions** which are critical of the CCP, promoting **narratives** that serve the government's interests and insulting or spreading misinformation about political opponents of the Chinese government, both domestic and abroad.^{[9][10][11]} Some of these commentators have labeled themselves **ziganwu** (Chinese: 自干五, short for 自带干粮的五毛, *zì dài gānláng de wúmáo*, lit. 'wumao who bring their own dry rations'), claiming they are not paid by authorities and express their support for the Chinese government out of their own volition.^[12]
