1. Vatniks: a baseball card thread

On the eve of the anniversary of Putin's upscaled genocide in Ukraine, let's mark the day by shaming some of those supporting him.

Twatniks, fatniks and plain old vatniks, you'll find them all here. I'll pin the thread and more will follow.

2. George Galloway

Failed politician George regularly degrades himself in public by retweeting conspiracies and pro-Russian lines under the banner of "truth". When Twitter labelled him Russian affiliated media he got very cross, threatened stuff, then promptly did nothing.

Today's toad-in-a-suit comes in the form of Hungarian nationalistic bowling ball, Mr. Orbán. You all know him, very few of you love him, and today he's not disappointed, describing Ukraine as a "financially non-existent nation". What a propaganda gift to Russia.
