This is not about peace, it's about money. Not millions, billions.  
Let me explain...

When the coup failed in Jan 20 2021, Russia had a problem. They already planned the invasion of Ukraine, but with Joe Biden in power - an outspoken friend of Ukraine - it would be much more difficult than with the easy to manipulate Donald Trump.

The invasion of Ukraine is about Vladimir Putin's vision to restore Russia's historic importance and Power.

But for one of Russia's oligarchs, Konstantin Malofeev, it was about money. He developed a plan to seize the industry of south-east Ukraine and transfer it into his own property. A multi billion dollar project.

1/ If Russia's full-scale invasion of Ukraine had succeeded in 2022, Ukraine's industries would have been seized and taken over by Russian oligarchs. A leaked document shows that oligarch Konstantin Malofeev intended to create a 'DMZ Concern' from Ukraine's largest plants. ↓

Konstantin Malofeev is known in the US for its connection to Jack Hanick. And for his support for Russian operatives in east Ukraine in their fight against an independent western oriented state.

The DOJ has more "information" about Malofeev, but we barely talk about his ties to the US, to politician or "media personalities". We don't talk about his connections to Jan6 or to the Trump campaign, he is not a part of the Mueller Report.

But today we have to talk about Malofeev's connection to the [#RageAgainstWar](#) campaign.

It's about Daniel McAdams, the executive director of the Ron Paul Institute.

And it's about LaRouche, a group that took over The People's Party in 2022.

Konstantin Malofeev's activities in the US and Europe are difficult to follow, because he is operating not alone. He has several people in his close perimeter, who are working in lockstep with him to subvert western values and democracy.

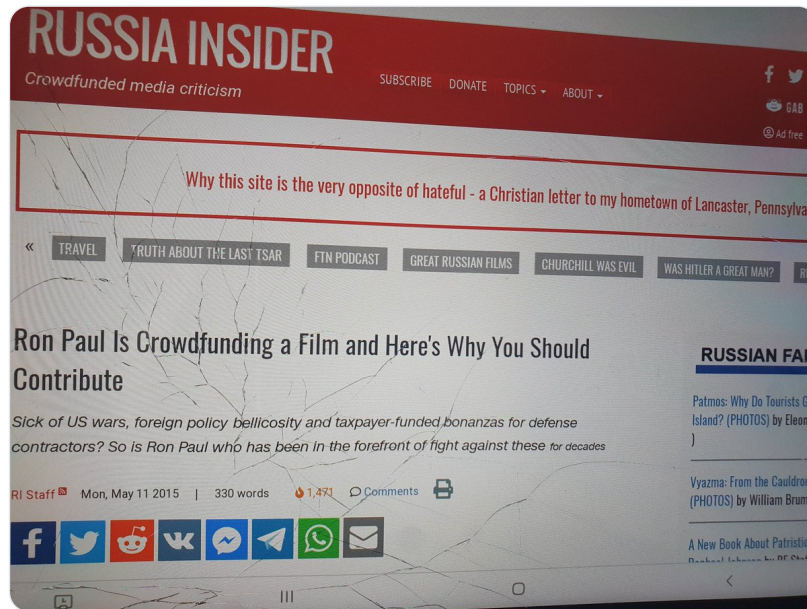

This is his "gang":

Daniel McAdams has a close relationship to Charles Bausman, the chief editor of Russia Insider. He wrote a lot of article for the online magazine.

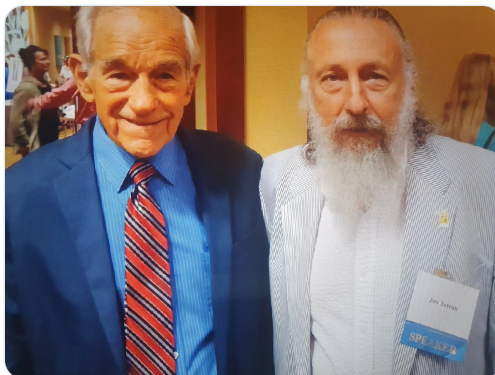

And Charles Bausman is a huge fan of Ron Paul. He encouraged his readers to donate money to Ron's film project.

But the Ron Paul Institute has connection to another member of the Malofeev gang too: Edward Lozansky.

Lozansky's friend James Jatras is even a teacher at the Institute.

Let's sum it up: There is an intensive connection between Daniel McAdams, Ron Paul and the Konstantin Malofeev gang.

And now we have to talk a group called LaRouche = Schiller Institute.

What is LaRouche? It's a group founded by Lyndon LaRouche 50 years ago. After his death his wife Helga Zepp-LaRouche took over the leadership of this group. They have close ties to China and Russia. Oh, and they have a special American friend too: Roger Stone.

One of their Russian friends is Sergey Glazyev. He is on the board of Konstantin Malofeev's Katedon.

Sorry, [#RageAgainstWar](#) is not about peace, it's a Russian influence campaign to put pressure at the Democratic left and the few "moderate" Republican.

Don't think Rand Paul is the only Senator with ties to the Malofeev gang.

And Roger Stone is not the only person in Trump's sphere with connections to the oligarch.

How many coup plotting lawyers are connected to Malofeev's buddy Alexey Komov?

Go out and find some answers.

And [@GeorgePapa19](#), I hope you will find some answers too...
